DETAILED ACTION

1. Claims 1 to 33 are presented for examination.
2. The indicated allowability of claims 30 to 33 is withdrawn in view of the claims rejection stated below.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 30 to 33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 30 to 33 are indefinite because the body of the claims seems to be directed to steps performed by a computer and not a program product as called for in the preamble thus; there is inconsistency in the claims as filed making the claims unclear.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 30 to 33 are rejected under 35 U.S.C. 101 because the language of the claim raises a question as to whether the claim is directed merely to an abstract idea that is not tied to a technology art, environment or machine which would result in a practical application producing a concrete, and useful result to form the basis of statutory subjected matter under 35 U.S.C. 101.

Allowable Subject Matter

6. Claims 1 to 29 are allowed.
